PROFILE

I'm a product-focused digital designer with an MSc in Medialogy, and I'm most motivated by understanding how people use digital products and turning those insights into experiences that feel clear, useful, and intuitive. I enjoy working across research, UX/UI design, prototyping, and frontend technologies, and I'm comfortable moving between user needs, technical possibilities, and business requirements. Through projects in mobile, web, SaaS, and interactive technologies, I've learned that I do my best work when I can collaborate closely with designers, developers, and stakeholders and help turn early ideas into solutions that can actually be built. I'm especially interested in understanding complex workflows, identifying friction points, and turning user and stakeholder insights into practical digital solutions that make everyday work simpler and more intuitive.

PROFESSIONAL EXPERIENCE

Digital Design Intern **Aug 2025 - Dec 2025**

Relesys A/S - SaaS company

Designed and prototyped user-centered mobile experiences for Relesys' internal communication and performance platform, working with digital products used by frontline employees across retail, hospitality, and manufacturing.

- Designed and prototyped mobile application experiences in Figma based on client requirements, user needs, and existing brand identities.
- Translated business requirements and brand guidelines into intuitive interface structures and digital experiences.
- Applied user-centered and iterative design methods to refine solutions based on feedback throughout the design process.
- Created interactive prototypes to communicate user flows, interactions, and design decisions.
- Used HTML, CSS, and LESS to customize applications through the Relesys CMS and improve visual consistency.
- Conducted visual and contextual research to understand client brands, target audiences, and communication needs.
- Collaborated across design, sales, marketing, project management, and development.
- Communicated design decisions and adapted solutions within business and technical constraints.
- Worked in a fast-paced SaaS environment with multiple client projects and iterative feedback cycles.

CORE COMPETENCIES

UX & Product Design

User-centered design · Interaction design · Wireframing & Prototyping · User flows & mapping · Visual design · Usability & Accessibility · Information architecture

Project & Collaboration

Agile/Scrum · Jira & Confluence · Stakeholder communication · Cross-functional collaboration · Client communication · Planning & coordination

Research & Evaluation

User interviews · Usability testing · Survey & Mixed methods · Data analysis · Requirement gathering · User feedback analysis

Technical

Figma · HTML · CSS · LESS · React · Unity · Github · CMS customization · AI-Integrated Workflow

EDUCATION

Master of Science in Medialogy, GPA: 9,3/12 **Sep 2024 - June 2026**

Aalborg University, Copenhagen Copenhagen SV, Denmark

Bachelor of Science in Medialogy, GPA: 10,4/12 **Sep 2021 - June 2024**

Aalborg University, Copenhagen Copenhagen SV, Denmark

Relevant Coursework: Interaction Design · Data Visualization · Qualitative and Quantitative User Evaluation · Problem-Based Learning (PBL) · Web Development · and Programming of Mobile Applications.

ADDITIONAL EXPERIENCE

Sales Assistant & Keyholder **May 2022 - Sep 2026**

Weekday

Worked in a fast-paced retail environment with a strong focus on customer experience, teamwork, and daily store operations.

- Provided customer service and guidance throughout the customer journey.
- Managed POS transactions, fitting rooms, restocking, and merchandise organization.
- Unpacked and prepared new merchandise for the sales floor.
- Held keyholder responsibilities, including secure store opening and closing procedures.

Sales Assistant & Keyholder **May 2020 - Feb 2022**

Søstrene Grene

Worked in both full-time and part-time roles with responsibility for customer service, sales, store operations, and an assigned department. Gained experience in the day-to-day operation of a retail store while contributing to a collaborative team environment.

- Held responsibility for the presentation, cleanliness, and stock levels of an assigned department.
- Managed stock and merchandise replenishment, including unpacking products and placing orders.
- Maintained store standards and ensured products were organised and available to customers.
- Assisted customers with product questions, guidance, and purchases.
- Took on additional operational and team responsibilities when the manager was unavailable.

Tutor and Tutor Coordinator for Medialogy **Sep 2021 - June 2024**

Aalborg University *Copenhagen SV, Denmark*

Led and supported a tutor team responsible for welcoming and supporting new students throughout their introduction to the university.

- Coordinated tasks and responsibilities across the tutor team.
- Planned and organised events and social activities for new students.
- Managed and tracked the team budget.
- Supported and guided tutors throughout the planning and introduction period.
- Helped create a welcoming environment and supported new students during their transition to university.

LANGUAGES

Danish - Native **English -** Fluent **Swedish & Norwegian -** Reading & listening comprehension
